EDUCATION

Bachelor of Science in Computer Science
University of Education

09/2022 - Present   *CGPA :3.54*

Intermediate in Computer Science
Punjab Group of Colleges

08/2020 - 06/2022   *Percentage: 91%*

WORK EXPERIENCE

Front-End Developer Intern
DigitalUX

05/2024 - 08/2024

What I Have Learned

- Developed responsive web apps using React.js.
- Collaborated with UX/UI designers to ensure pixel-perfect implementation
- Integrated RESTful APIs and optimized web performance.

PERSONAL PROJECTS

Admin Dashboard RealTime ChatApp
- Built a real-time chat app using Next.js and Supabase.
- Implemented authentication, message syncing, and presence tracking.
- Designed a mobile-first responsive UI with Tailwind CSS.

GitHub Search App
- Developed a GitHub user profile search tool using GitHub REST API and TanStack Query.
- Users can search by username to view real-time GitHub profiles, including avatar, bio, followers, and repositories.
- Implemented caching, loading states, and error handling for smooth UX.
- Styled with Tailwind CSS for a responsive and intuitive UI.

Admin Dashboard
- Admin interface for player and tournament management.
- Features secure login, player profile management, and intuitive UX.
- Emphasized responsive layout.

CERTIFICATES

Responsive Web Design – FreeCodeCamp (05/2024 - 06/2024)
